Oversized zip-up hooded sweatshirt made from 420 gsm brushed fleece, crafted in 100% cotton for an ultra-soft touch, excellent warmth, and a solid structure that holds its shape over time.

The oversized fit provides extra room and a bold, structured drape. The lined hood adds volume and comfort, while the metal front zipper allows for adjustable ventilation and styling. 1x1 ribbing at cuffs and hem ensures good shape recovery, and a self-fabric half-moon at the back neck reinforces this high-friction area. Split kangaroo pocket at the front offers both warmth and everyday functionality.

Standard production tolerances: $\pm 5\%$ in measurements and weight.
